

## Life Support Capital project - Updates (January 8, 2016)

### WEEKEND WORK

**Start Date:** Saturday, January 9, from 7 a.m. to 5 p.m.

We have requested that noisy work, particularly in the vicinity of *Building J*, off Melrose Avenue, should not begin before 9:00 a.m.

The work will include:

- Removal and demolishing of existing concrete parkade slab (former parking garage) at *Building J* (TOH - Ambulatory Care) including the breaking of concrete.
- Footing preparation to the area of the New Building. Excavation will include some breaking of rock.

### ROAD CUT TO RUSKIN STREET FOR NEW SITE SERVICES

**Date:** January 11 – 14 (inclusive)

#### What will be affected:

- Traffic will be one-way for the duration of the work. The contractor will be providing flagmen to monitor and control the traffic flow, including pedestrians.
- The road cut on Ruskin Street is required so the new site services (sanitary & storm) can be connected to the existing services.
