PUBLIC CONSULTATION MEETING

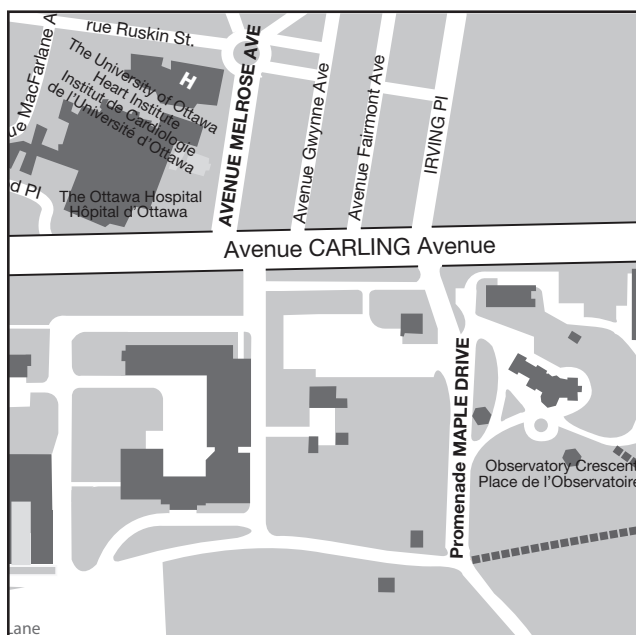

Central Experimental Farm

Maple Drive Entrance Relocation

Agriculture and Agri-Food Canada invites you to attend a public consultation meeting. It will review preliminary plans for a proposed relocation of the Central Experimental Farm entrance on Carling Avenue at Maple Drive to Melrose Avenue.

7 – 9 p.m., Monday, January 24, 2011

**Central Experimental Farm, K.W. Neatby Building, Salon A,
960 Carling Ave., Ottawa, ON K1A 0C6**

A Management Plan was prepared in 2003 as a long-term framework for managing the Central Experimental Farm (CEF). It recommends relocating the CEF's main entrance on Carling Avenue as a way to *"To sustain a cultural landscape of national historic significance through a reinvigorated and ongoing agricultural research program"*.

Ottawa City Councillors, Katherine Hobbs and Maria McRae, officials from Agriculture and Agri-Food Canada, and Public Works and Government Services Canada, and the Consulting Team will be available to discuss concept plans and take your questions. Your input is vital at this stage of the project.

During this consultation, you will be able to:

- Review the Management Plan and a summary of the Traffic Study for the Central Experimental Farm Entrance Relocation and related objectives.
- Provide comments and bring forth any issues that you may have with regard to the proposed plan.

**For more information and/or to submit comments,
please send an e-mail to: CEFplan@agr.gc.ca**

Comments should be submitted by Monday, January 17, 2011.

**To view the Management Plan and the Traffic Study (Executive Summary),
please visit AAFC's consultations site at <http://www.agr.gc.ca/publicconsultations>**
